Washington, DC 20231

Dear Sir:

In response to the Office Action dated February 12, 2003, please amend the above-captioned patent application as follows:

Please amend Claim 1 as follows:

1. (twice amended) A skylight assembly, comprising:
- at least one skylight shaft defining at least one segment, the segment having an axially straight outer surface throughout bounded by opposed ends;
  - at least one layer of reflective film on the inside of the segment;
  - at least one layer of adhesive holding the film to the segment; and
  - at least one surface irregularity formed in at least one of: the adhesive, the reflective film, and the segment;
